The boats were lying at the upper landing in Fulton, with a number of other steamers tied up during low water. The steamers Goff and Shinkle were cut loose and floated away ont of danger. No one is able to tell how the fire started. The Bonanza and Morning Mail were owned by the Cincinnati, Portsmouth and Big Sandy Packet company. The former was built in 1876 and is worth now $24,000. The latter was built two years ago and was valued at $30,000. Insured in the Cincinnati companies for $20,000 each. The Lily's damage is estimated at $10,000. No lives lost.

She is described as handsome and a member of the south side Episcopal church choir. Nervon is declared to have acquired some means of his own and is a man of fine physical appearance. THE SUNNY SOUTH.

The People of the South---Their Hospitality and their Skill.

Hon. R. C. Bell returned a few days ago from a visit to Alabama where, as has been stated, he was engaged in a murder trial. On his return a SENTINEL representative asked him about the general condition and prospects of the south. Of course his observation was some what limited, being very busy during his entire absence, but he at least cast his eyes over the political horizon and in answer to a question said:

"Oh there's no doubt about the south or any portion of it. It is solid for the democratic ticket clear through. There is much enthusiasm and the majorities promise to be larger than ever."

In further conversation in which he expressed himself well plensed with all he had seen he enthusiastically spoke of the hospitality of the people, remarking that it was surprising the evident pleasure it gave the southerners to meet a northerner. Nothing too good for him and they vied one with the other in showering attentions upon their guest in common.

Speaking of the members of the bar Mr. Bell complimented them highly saying that he found excellent criminal lawyers there, men of great ability and of shrewdness and who were an honor to the profession.

VICTORY.

The Signs of the Times Pointing to a Glorious Victory for the Democracy.

Cheering News Received from all Parts of the Country--The Trouble in Virginia.

The Efforts of Republicans to Suppress the News--Stopping the Circulation of Papers.

Brightening Prospects.

WASHINGTON, Sept. 20.—Reports from every quarter received at democratic headquarters here continue of the most encouraging character. Congressman Eldridge, of Michigan, writing to the democratic committee from Adrian, Mich., under date of the 16th inst., says:

We feel confident of carrying Michigan against Blaine. Our union fusion here is perfect and cordial and the prohibitionists will poll a heavy vote, principally from the republican party. We have have got the republicans on the run and will whip them.

Hon. Benton McMillan, of Tennessee, was a caller at headquarters to-day and gave an assuring account of the situation in that state. The tariff plank of the national platform is thoroughly satisfactory to the democrats there, he says, and that Cleveland and Hendricks will have not less than 20,000 majority.

In the Fourth Virginia district, where Mahone was defied by the straightouts, who put a colored man named Evans for congress against Mahone's man Brady, a very bitter contest is on. The colored people have about 7,000 majority in the district. Evans is appealing to them to assert their supremacy at the polls. He has invited Fred Douglas to stump for him. Douglas, however, who is an officeholder, will not dare respond favorably.

The Course Pursued by Republicans.

INDIANAPOLIS, Sept. 20.—The indignation of Germans over the action of Phillips, the republican postmaster at Garret, KeKalb county, in failing to deliver copies of the *German Telegraph*, has become intensified against the republican party and managers in Indiana. Last night 400 independent Germans who have heretofore voted the republican ticket and always acted with the republican party, resolved to support Cleveland and Hendricks. It is remarked in certain quarters that certain news-gatherers acting for associations non-political failed to give the country the information about the arrest of Postmaster Phillips. The only information on the matter sent out was by special correspondents. Every movement connected with republican success or that has the least republican shading is duly noted and scattered by the partisan representatives of certain associations broadcast, but when a matter of legitimate news transpires, simply because the offender is a republican, the news is suppressed. There could have been no impropriety in sending out the news of Phillips' arrest.

Sure of Success.

WASHINGTON, Sept. 20.—Chairman Dan Manning, in a conversation in New York city yesterday as to the political situation, said: "People may say what they please, but Grover Cleveland is going to be our next president. Perhaps I ought not to say so much, but I have the most reliable information from all over the country, which assures me of what I say. You ask me how it is things are going so quietly. The fact is we are doing more silent work than in any campaign that I remember. We are going to win."

Affairs in Egypt.

CAIRO, Sept. 20.—Conflicting rumors reach here of the progress of events in Soucan. According to the latest, which was brought to Dongola this morning by a messenger, General Gordon within the past two days has gained two victories and the siege of Khartoum has been raised.

SATURDAY, SEPT. 20, 1884.

OFFICIAL PAPER COUNTY AND CITY.

UNION men violate their pledge if they fail to "scratch" Rhody Shiel.

WALKER BLAINE to Logan—"Burn all old telegrams about Maine election."

CALKINS might now be happier if he had only told Mrs. Duncan to "burn this letter."

THE independent Germans of Indianapolis have resolved to support Cleveland and Hendricks.

"A MAN is a d—d fool who would not buy a nomination or an election if he could."—*Rhody Shiel.*

CONGRESSMAN ELDRIDGE says the republicans of Michigan are on the run and that we "will whip them."

WHY do not Blaine's party organs follow their chief's express desire and publish the whole lot of the Mulligan letters?

THE little rumbling of the earth yesterday in this locality was only a premonition of the grand "shaking up" which the republicans will shortly experience.

FIRST Assistant Secretary of the Treasury French has seventy relatives quartered on the government, their combined salaries being about $100,000. Turn the rascals out!

RHODY SHIEL is a fine man for a father to hold up as an example to his sons. And he indorses him and his methods when he votes to place him in a position of honor or trust.

BEFORE the Maine election THE SENTINEL argued that Robie must receive at least 15,000 votes to give Blaine any indorsement. He received four hundred more. The magnetizer should rub up his battery.

ALEXANDER MCDONALD went all the way from Arkansas to New York to have Gath print his defence of Blaine in the Little Rock railway business. It is now in order for some one to rush to the defense of Mr. McDonald who was an interested partner in the affair.

BELVA LOCKWOOD is now left alone in her battle for the women's ticket. In this emergency we beg leave to suggest the name of Benjamin F. Butler, who has recently had his pockets enlarged and which are now capable of holding another nomination. It would make a good fusion ticket.

IT is asserted and on good authority that Blaine's visit to New York was to secure the withdrawal of St. John from the presidential race in his favor, his friends arguing that the vote in Maine on the prohibition amendment should satisfy everybody that Blaine was as good a friend to the prohibitionists as St. John. But St. John did not withdraw.

THERE is certainly something wrong with "Gath." For the first time he admits that there is just the least doubt in the world about Blaine's election. His latest effort is truly touching. He says: "The presidential election is in great doubt, notwithstanding the republicans have carried the two New England states. In my conversation with the most ardent friends of Mr. Blaine, I find that they admit the existence of considerable opposition to him, especially in this state, and particularly in this city and adjacent parts."

IT appears that the postmaster at Garrett, DeKalb county, allowed his zeal for the success of his party to get the better of his judgment, if he possesses any of the latter article, which does not seem probable. The *German Telegraph*, a paper published at Indianapolis, and which has recently espoused the cause of Cleveland and Hendricks, has a number of subscribers at that place. From time to time complaints were made that the papers failed to reach the subscribers, until finally a detective was put on the track. He bought the entire number of papers sent to the office among a lot of waste paper from the postmaster and now this worthy official is awaiting trial on the charge of embezzlement. In republican circles no doubt this would be considered an act of persecution for doing the country a service.

NOT the least of the many surprising and encouraging events which have come upon the democracy in this campaign was the organization a day or two ago of a Cleveland and Hendricks club by the members of the New York Produce Exchange, starting with a membership of 433. The constitution declares that "the sole purpose of this club shall be to secure, by all fair and honorable means, the election of Cleveland and Hendricks as President and Vice President of the United States; and whereas the membership of this club is composed of republicans and democrats, it shall in no way become identified with local or state politics." The club's make up is without any relation to old party preferences of the members. The president is an old republican, as is the treasurer, while among the vice presidents and on the Executive Committee the republicans are Messrs. Munn, Snow, Locke, Eng, De Long, Lamson, Baxter, Smith, Neustadt, Edson, Goadby, Griggs and A. Munn, JR. A banner is to be suspended across Broadway and already headquarters have been established. The work will be continued through the exchanges of the country.

AFTER a long delay and much hesitancy Mr. Blaine has at last written another one of his characteristic letters on the subject of his marriage. In this letter which has been given to the public, its author admits that he was twice married, once illegally in Kentucky in June 1850 and again in March 1851, the last ceremony being performed in Pittsburg. Both of these little affairs were secret being witnessed by only "a few chosen friends." The first child was born June 18, 1851. Of this last ceremony Mr. Blaine says it occurred in the presence of witnesses "but was not otherwise made public for obvious reasons." THE SENTINEL has no desire to bring to light any family scandal nor does it attack the good name of any one without grave cause. But to the minds of every thinking man it must be self-evident that Blaine has pursued a very strange course in this matter in which the honor of his wife is at stake. Why did he not long ago give his statement of the matter to the people? Was he afraid to trust his case in their hands? It seems, too, that he has all through his life pursued the one plan of secrecy in all his acts. This is not only true of his business affairs, but both of these weddings were kept very quiet "for obvious reasons," even the last one, when it would seem publicity that was necessary to stay the tongue of scandal. It seem, too, remarkable that as smart and intelligent a man as Blaine was so ignorant of the laws of Kentucky on the subject of marriage. These matters as well as many others still need additional light.

OUR BAPTIST BRETHREN.

The State Convention to be Held in this City this Year.

The fifty-second anniversary of the Indiana Baptist State Convention convenes in this city with the First Baptist Church October 28 to 31st. The opening session begins Thursday evening of the 28th and the introductory sermon will be delivered by Rev. C. E. W. Dobbs, D. D., or Rev. J. K. Wheeler of Terre Haute. The attendance will be fully three hundred. Representative clergyman of the denomination will be present and take part. This convention will be one of the most eventful and enthusiastic for the reason that the year past has been in a marked degree a successful one in every department of church work. Over three thousand have been added on profession of faith to the membership of about forty thousand. The Baptists of this city with the hearty co-operation of its many public-spirited citizens, will no doubt do everything in their power to entertain this thriving body of Christian workers. In these hotly contested political times; in these exciting moments when partisan spirit is at fever heat, perhaps the presence of this religious convention may be as a "little leaven leavening the whole lump," thereby harmonizing discordant elements and pouring the oil of brotherly love upon wounded hearts.

The following statistics of this denomination are interesting and significant: In 1781, the Baptists in America numbered 25,000; in 1810, 165,000; in 1880, 2,800,000. Thus since 1810 they have doubled each year: In 1810 they numbered 1 to each 44 of the population; in 1830, 1 to each 38; in 1850, 1 to each 33; in 1870, 1 to each 27; in 1880, 1 to each 22.

All weakness and ill health owes its origin to an impure state of the blood and weakness of the urinary and digestive organs. A medicine that will strengthen these organs, and at the same time purify the blood, will assist nature in curing nearly every disease, that human flesh and blood is heir to. Such a remedy is Dr. Guysott's Yellow Dock and Sarsaparilla, and, although it possesses no cathartic or diuretic effect, its use will soon establish a regular habit of body as well as cure weakness of the kidneys, indicated by urinary sediments, nervousness, etc.

The Supreme Court.

The following case was decided Tuesday, September 16:

10693. The City of Valparaiso et al. vs. Joseph Gardner. Porter C. C. Reversed. Elliott, C. J.

A city has the power to enter into a contract for a supply of water for twenty years, and such a contract cannot be overthrown solely on the ground that it is a surrender of legislative power. (473-4.) The constitutional provision limiting the indebtedness of cities to two per centum does not apply to contracts for a period of years for water to be paid for as the water is furnished at so much rent per annum, provided it is shown that the contract price can be paid from the current resources as the water is furnished, and without increasing the corporate indebtedness beyond the corporate limit. The rents cannot be added together for a period of years, and that called an indebtedness against the city. The indebtedness is only created where the water has been furnished to the city. (98 Ill. 416.) The supply of water is necessary to the welfare of the inhabitants of a municipality, and constitutes one of the items of current expenditures essential to the welfare of the corporation.

The Voice of the People.

The people, as a whole, seldom make mistakes, and the unanimous voice of praise which comes from those who have used Hood's Sarsaparilla fully justifies the claims of the proprietors of this great medicine. Indeed, these very claims are based entirely on what the people say Hood's Sarsaparilla has done. Send to C. I. Hood & Co., Lowell, Mass., for a book containing statement of many cases.

The Arion Singing society will run an excursion to their picnic in Zollinger's grove to-morrow afternoon.

Dink Trentman brought his Frank Forrester horse from Kendallville this morning and now takes dust from no one.

There was a race at the fair grounds this afternoon. A Texas pony was matched to beat four minutes in a trotting race.

The proceeds of the Jeffersonian club excursion are to go exclusively towards paying for the uniforms worn by the democratic first voters.

Republican circulars posted up in the Pittsburg shops have been taken down by order of Mr. Joseph Wood, general master of motive power.

John Arentz, of Decatur, Ala., is expected in the city to-night. He will wed Miss Teresa Fry, a charming young lady, before his return south.

Leading republicans comment very unfavorably on Blaine's explanatory letter published this morning. They all agree it is a confession and hint something about muzzling the "d—n fool."

The indications for the lower lake region as reported to THE SENTINEL by the weather bureau at Washington are as follows: Partly cloudy weather and local rains, followed by fair weather, lower temperature, northwesterly winds and higher barometer.

The Jeffersonian club excursion train leaves the north depot at 8:30 o'clock Tuesday morning and returns at 7 o'clock Tuesday evening. At the court house that evening Governor Hendricks, Senator Voorhees and Hon. F. C. McNutt will speak. The rally Monday is only a grand reception for Governor Hendricks.

John Jacobs, of Huntington, is in the city searching for his wife. Early this month Mrs. Jacobs went to Lima, Ohio, to get a snug amount of money willed her by her brother. She wrote her husband from this city some days ago to meet her here. He came on but can not find his wife and is considerably alarmed. Marshal Meyer and his deputies are assisting in the search for the missing matron, who they fear has been robbed and foully dealt with.

A. H. Phillips, the post master at Garrett, Dekalb county, is under arrest for refusing to deliver copies of the Indianapolis German *Telegraph*, a democratic paper. An agent of the *Telegraph* purchased old papers of the post master and found his journal among them. He is charged with embezzlement. The penalty of such an offense is a fine of $50, to which may be added imprisonment for one year. The *Telegraph* expects to prove thirteen cases against Phillips, and thereby teach a lesson to him and other postmasters suspected of like tampering.

J. H. Turpie, a prominent merchant of Monon, Whitley county, is taking depositions in this vicinity to prove that he did not meet Mrs. Horton, wife of the Monticello dentist, here. He has two libel suits for $10,000 each against the editors of the *Herald* and *Democrat*, of Monticello, who accused him of skipping out with the woman, who is mashed on the Indian evangelist and a Fort Wayne clothing man. Turpie explains that at Logansport he had her baggage transferred from the Pan Handle to the Wabash depot, and that he didn't see her on the Wabash train. She went to Fort Wayne and he to Wabash and that he had no opportunity to maintain improper relations with her. The gay heroine of the case is now at Kankakee holding a religious revival with Evangelist Henderson.

Yesterday at Pittsburg Judge Ewing refused to grant a preliminary injunction in the case of the Pennsylvania railway company against the Pittsburg, Fort Wayne and Chicago railway company, and also to grant an order to compel the defendant company to issue at least $441,000 of preferred stock to pay for improvements made on the road. The court held that a preliminary injunction was not necessary and that no rights would be jeopardized by waiting until a final hearing of the case. The Pennsylvania company had been withholding the annual rental because the stock had not been issued, and the Pittsburg company was about to take steps to annul the contract for the reason of default. This is a victory for the Pittsburg road and a defeat for the Pennsylvania company, which was suspected of having a greedy desire to get control of the Fort Wayne road.

A remedy that has proven itself a never failing cure for scrofula and syphilitic disorders must quickly cure less terrible blood diseases. Dr. Guysott's Yellow Dock and Sarsaparilla is such a perfect blood purifier and strengthener of bodily functions, that it cures the above diseases even when Hot Springs and all other treatment has failed. Remember, it is absolutely free from mineral poisons, and will not injure the most delicate constitution. Its use will make you feel buoyant, strong and well, and will rid your system of all blood impurities and every internal and external indication of disease.

HYDE & BEHMEN'S MINSTRELS.

Hyde & Behmen's Minstrel company appear at the Academy to-night. The Brooklyn *Union* says: "The performance was of a better kind than is usually vouchsafed the public of this city. There were no pompous announcements made of mastodons or mammoth combinations, but the work done was of genuine merit, the singing and the sketches being exceptionally fine. There were at first eight end men, including well known, almost famous men in negro minstrelsy. Then a change was made, which brought on two more tambourine and two more bone players. The "Scenes at a Clothing Store" were highly amusing. The second part was made up of humorous and unobjectionable sketches."

Is human testimony valuable? If it has been commended, in use, for forty years among the people; if its claims have been repeatedly and thoroughly tested and vindicated by the medical profession; if this statement is corroborated by thousands of written certificates from all parts of the world, from all classes of society, from the armies and navies of the United States, Great Britain and other countries, from the judicial bench, and finally from all ranks and conditions of men; if any value attaches to human testimony, then these testimonials must be regarded as unimpeachable and overwhelming that Pond's Extract is the best family medicine in use, both for external or internal application.

Catarrh Cured

Catarrh is a very prevalent disease, with distressing and offensive symptoms. Hood's Sarsaparilla gives ready relief and speedy cure, from the fact it acts through the blood, and thus reaches every part of the system.

"I suffered with catarrh fifteen years. Took Hood's Sarsaparilla and I am not troubled any with catarrh, and my general health is much better." I. W. LILLIS, Postal Clerk Chicago & St. Louis Railroad.

"I suffered with catarrh 6 or 8 years; tried many wonderful cures, inhalers, etc., spending nearly one hundred dollars without benefit. I tried Hood's Sarsaparilla, and was greatly improved." M. A. ABBEY, Worcester, Mass.

Hood's Sarsaparilla is characterized by three peculiarities: 1st, the *combination* of remedial agents; 2d, the *proportion;* 3d, the *process* of securing the active medicinal qualities. The result is a medicine of unusual strength, effecting cures hitherto unknown. Send for book containing additional evidence.

"Hood's Sarsaparilla tones up my system, purifies my blood, sharpens my appetite, and seems to make me over." J. P. THOMPSON, Register of Deeds, Lowell, Mass.

"Hood's Sarsaparilla beats all others, and is worth its weight in gold." I. BARRINGTON, 130 Bank Street, New York City.

LYON'S KOZOTHIUM.

A Gift to the Gray and a Boon to the Bald!

BEFORE USING. AFTER USING.

Lyon's Kozothium is not a dye, but a clear, fragrant oil, and acts purely as a tonic to the hair follicles and capillary circulation of the scalp, whereby it restores the natural action, and as a result

RESTORES THE NATURAL COLOR

To the hair, rendering it soft and beautiful. This wonderful remedy, unlike all its predecessors, is

ENTIRELY FREE FROM SULPHUR, NITRATE or SILVER.

And all noxious and deleterious chemicals. It has fast friends wherever known and used: it deposits no sediment upon the scalp, does not stain the skin nor soil the most delicate fabric, and is an

ELEGANT AND DELIGHTFUL HAIR DRESSING,

And an indispensable article to every lady's toilet. To middle-aged men who are prematurely bald, or becoming bald, it is especially recommended, and when fairly and properly used, will never fail in arresting the falling off of the hair and encouraging a vigorous and abundant growth of new and healthy hair.

From a Well-known, Prominent Clergyman.

SHELBYVILLE, Ill., June 12, 1884.

Messrs. A. Ceifer & Co. Gentlemen:—A year or two since I began to lose my hair. A prescription by a barber temporarily checked it, but after a brief time it again began to come out by handfuls, and a prescription by a physician again checked it.

During last winter and spring it again became dry and harsh, and finally left the top of my head bare. My attention was called to your Kozothium. I was afraid to use it, dreading sulphur, lead or nitrate of silver. But matters were growing worse daily, and the fly season was close at hand, so I procured a bottle of Kozothium. The result is an excellent crop of hair, and, strange to say, of its original color, soft and pliable, a clean scalp and no irritation, and this on the head of a man over fifty. I have no hesitation in saying it is the best hair restorer extant, and from trial I do not believe there is a particle of andthing dangerous in it.
Yours truly, REV. B. MILLS.

From a Lady of Clay County.

BRAZIL, Ind., July 7, 1884.

Messrs. A. Kiefer & Co., Indianapolis: Gentlemen—Having but little faith in Hair Restoratives I was, after much hesitation and with great reluctance, induced to try a bottle of Lyon's Kozonthium. My hair was gray, coarse and harsh, and so that for years, whenever combed or brushed, it would break off. Upon using the Kozothium a speedy and desirable change took place. My hair became live and lustrous, regained its natural color, ceased to break off, and is now as soft, elastic and glossy as anyone need desire. As a hair dressing I now find it indispensable, and indorse it heartily for all purposes for which it is recommended. Mrs. FANNIE B. WAMSLEY.

From a Popular Hardware Man.

INDIANAPOLIS, July 1, 1884.

Messrs. A. Kiefer & Co., Gentlemen:—I have an antipathy to all so-called hair restorers. A few weeks ago, however, giving way to the persistent entreaty of a friend, I tried Lyon's Kolothium. I am deigted with it. My hair which was very grah. has been restored to its former natural color. It is no longer harsh and coarse, but is smooth, glossy and healthful, and my scalp feels better than it has for years. I cheerfully bear testimony to the fact that Lyon's Kozothium is a true restorer of the health and natural color o the hair, and heartily indorse it. It is , only a cleanly remedy, but it is an admirable hair dressing, and now that I know its qirtues I would not, under any circumstances, be without it.
Yours very truly, W. F. QUIGLEY.

From one of the Best Known Insurance Men in Indiana.

INDIANAPOLIS, July 5, 1884.

A Kiefer & Co., Gentlemen—For some time my hair has been falling out, threatening me with baldness. I used Ayer's Hair Vigor, Hall's Hair Renewer and other remedies with no effect. My scalp has always given me trouble; being covered with scales, the result of a scrofulous affection. Recently I was prevailed upon to try Lyon's Kozothium. The effect was wonderful. Not only was the falling of hair promptly arrested, and a new growth of hair stimulated in its stead, but the scales were removed from the scalp, which is no longer feverish and uncomfortable, ovt cool and healthful. My hair, which was exceedingly gray, has resumed its artural color, my beard, to which it is restoring the natural color, though more slowly than to my hair. I recommend it with confidence as a medicine for the scalp, a hair tonic and a hair restorer.
